

ARMORED SERVICE – CASH HANDLING

Procedures for current business ventures and incidents.
Creation of a training plan based on legal guidelines and daily missions

International Bodyguard Academy Inc.

Académie Internationale des Gardes du Corps Inc.

These services are offered to :

Any transport company and their employees

Why use these services ?

The demands of the insurers are growing and the risks of imputability are higher than ever. Most companies don't have the time, the patience, the personnel or the resources to ameliorate their business plans or to train their employees due to current business ventures.

How long are the trainings?

Depending on the chosen course length can be variable. Initial certification program, annual re-certification, personalized trainings and competency continuity plans. We offer the best compromise between minimal legal course length, the mission and the financial capacities of the client.

Advisors and instructors profile

Our personnel has many years of experience in security management. He has worldwide recognized qualifications and conforms himself to the quality guidelines and the business ethics of the main professional security associations in North America.
