International Bodyguard Academy, Inc.

Our training sessions are specially conceived for corporate and executive protection. Low profile missions and total discretion.

We train the best Personal Security Assistants

The executive will focus on the task at hand while the PSA insures the success of the mission

The PSA will be able to ensure medium or high risk missions (level 2/3)

Who may attend these training sessions ?

- Bodyguards - Beginners and working
- Security agencies
- Corporate security services
- Individuals
- Government organizations

Instructors Profile

All our instructors are professionals and are presently on the work force. Because of this we cannot guarantee that a specific instructor will be given a specific course. Issued from the government or private companies they all have real-life experience that is verifiable. Bodyguard, information agents, bug detection specialist, etiquette & protocol expert, shooting instructor, criminology graduate, SWAT instructor, paramedic, etc...

WHAT IS THE PEDAGOGICAL METHOD?

We have developed a pedagogical method of teaching using real work conditions : lack of sleep, stress, unexpected events, impulses, on spot decision making, changes, etc... It is useless to try and relax, students must give their 150%. The objective is to create a team that will successfully complete the mission. Solidarity, task sharing, confidence and comprehension are all keys to success.

The instructors are available 24/7 and insure that everything flows normally.

Do we need preliminary training?

No, must be in good physical condition. No push-ups or running, training content is only used for developing new skills

BODYGUARD – CLOSE PROTECTION

Base training – 100 hours over 7 days

On the first day students receive the mission to prepare during their spare time. Threat assement, routes, reco, chronos, travel safety, etc. Team work or failure. In the mean time instructors deliver all the know how to succeed.

Last day = exam = real life mission

Admission conditions

We are very demanding when it comes to the rules of admission and during the training the students behavior. We are strict about students apparel, attitudes, behaviors outside the Academy walls.

We believe that the training is the bodyguards first mission. Human qualities are as important as technical capacities. We reserve the right to exclude any student who does not follow the above mentioned policies whether for attitude, behavior or individualism problems.

Do you have placement guarantees ?

None, if you have been told otherwise, you've been lied to. In no way can a bodyguard be forced upon a client, the client will always decide who his/her bodyguard will be.

On the other hand we regularly receive job offers from corporations that we redirect towards our old students... may the best win !

Special Training

Executive and family protection during negotiations or labour conflicts

Training for security agencies (support and resources for corporation)

Professional at risk: doctors, abortionists, special witness, judges

Training for emerging countries : presidential guard force, family security, protection team for high profile hosts.
