WE OFFER THE PROPER TRAINING TO SURVIVE ALL OF THESE SITUATIONS

Training is available to:

Security agencies
Armored services and cash Handling
Public safety officers
For individuals who want to surpass their capabilities

Are these trainings recognized?

Yes, since professionals and security agencies are obliged to follow trainings that stick to the reality of life. In the event of an incident security agencies are legally responsible for the quality of the trainings that is supplied to their staff. We keep a vast database of every training information and results of each student to be able to regularly update their continuous improvement plan. Worst case we have all the information to defend the agencies and the agent in court.

Is it necessary to have preliminary training?

No. By law each student is forced to start at the beginning with the basic fundamental course « gun license to work armed ».

Once the student has successfully passed the course he will have access to the other courses. Each course must be followed in sequence. Many students redo courses to continually learn how to master all the components.

How long are the training sessions?

Depending on the chosen course, length can be variable. Initial certification program, annual re-certification, personalized trainings and competency continuity plans.
